Plan Sheets To Be Made in Week

Work Will Start Friday With Farm Committeemen In Charge of Planning

Twenty-one farm program committeemen met at the County Agent's office Tuesday afternoon to complete plans for executing the 1944 farm plan sheets. The work of making the estimates for each individual farm will start tomorrow and will continue for one week with community committeemen on duty each day to assist in making the estimates and correctly executing the plan sheets for farms in their respective communities.

The principal use of the farm plan sheet is the making of accurate agricultural statistics by counties for use of the War Food Administration.

The execution of farm sheets are entirely voluntary on the part of each farm operator and are not a requirement for participation in the Agricultural Conservation Program except in the case of the range program where grazing capacity of grass land must be estimated by the ranch operator at the beginning of the season as a condition for certain conservation practice payments. The Randall county farm committeemen held a round table discussion, at the meeting Tuesday, of the question of accurate figures for the county and the need for these figures to be made by the farmers themselves instead of having them made for us by some one in Auston or Washington.

R. B. Gist, Chairman of the county AAA committee pointed out that Randall county has an enviable record in the matter of accurate figures for all production statistics.

In addition to the regular food production estimates the Randall county committeemen will undertake to assemble data on the three greatest handicaps to food production in 1944 on each farm and rate these handicaps in order of importance for the whole county.

Canning Sugar to Be Available for the Coming Year

Changes in the details of the sugar rationing program was announced this week by OPA.

Sugar Stamp No. 30 in Book IV, previously announced to expire March 31, and Stamp 31, which becomes valid April 1, will be good indefinitely. Removal of the expiration date on two sugar stamps will permit consumers to buy sugar as it is needed and should relieve the heavy demand on retailers, customary at the end of each ration period.

Stamp No. 40 in Book IV has been validated for five pounds of sugar for home canning purposes until February 28, 1945. For any sugar over and above this amount, application must be made to the local board. A new and simple form, which the ration board will mail upon request, is to be used. More than one application may be made during the year for home canning sugar, but the total issuance cannot exceed 20 pounds per person. Consumers should apply for sugar only as it is needed.

When sending application for sugar for home canning to the local board, spare stamp No. 37 from Book IV should be attached to the application form for each person applying for sugar. Do not send ration books. If the ration board approves the request, it will mail coupons or certificates for the sugar and keep the application on file at the ration board. If more sugar is needed later, a second application may be made, but it must be made to the board where the first application is on file.

In a teleprone call to his mother last night, Lieut. Artist H. (Hud) Prichard reported that his wife, (formerly Dorothea Harter) and the baby daughter, Patricia Anne, are both doing well. Patricia Anne weighed only 3 lbs. and 8 ozs. at birth but is growing in her incubater home. The other twin, a girl too, lived only a few hours.

Mrs. Leta McDougal Gaines joined her husband in Portland, Oregon, this week. Mr. Gaines is employed in the shipyards there.

Hal Harrison Home From the Pacific

Hal Harrison, 1/C Aviation Ordnance, is home on a furlough from the navy visiting at the home of his mother, Mrs. C. N. Harrison.

He has been in eight major engagements in the Pacific. He is assigned to one of the large airplane carriers which has been on many missions where the fighting was hot.

MOVES HOUSE HERE

Mrs. Milton Dooley has moved a residence to Canyon from her farm southwest of Canyon. It has been located two blocks south of the square.

'A' Gas Stamps Three Gallons

But Stamps Must Last for Three Months Instead of For Only Two Months

Gasoline coupons are not reduced in value but No. 11 must last for three months instead of two months.

The first announcement issued last week was that the value of coupons had been reduced to two gallons. Service stations started selling gasoline at this value yesterday morning until official notice was received that the value of the coupons were not reduced, but motorists must make their supply of coupons last for three months.

Red Cross Drive In County Still Is Incomplete

The Jowell voting box holds first place per contributor this week in Randall County's Red Cross War Fund drive, with the Wesley box a close second. C. P. Robertson and Emil Schaeffer are the community chairmen in the drive, and this report represents collections up to Wednesday morning. The largest single gift in Randall County has been $100.00 and the smallest 25 cents.

With less than ten days to go, Randall county has approximately $2,750.00 of its quota still to raise. According to statement made by National Chairman, Norman Davis, ninety cents of every dollar of this money will go to help men of the services. Many of the men who will be helped are boys from Randall County who are in all parts of the world. The Red Cross furnishes nurses for the hospitals, plasma for use at first aid stations and in hospitals, recreation spots where boys can rest and have fun during their rest periods, and all sorts of services for the men unfortunate enough to be prisoners of war. Only through the Red Cross can they hear from their people, or their people from them. There are a number of Randall County boys now in prison camps.

County War Fund Chairman, T. V. Reeves, says that every community chairman is hard at work, and that Randall County will raise its quota if the people in Canyon will make their payments at the City Hall or the office of Registrar D. A. Shirley at the college or at the First National Bank. Not many workers are to be had because everyone is so busy, and Canyon people are asked to make their contributions to the Red Cross so that a house-to-house canvas will not be necessary the last days of the month. The War Fund should be completed by March 31. Carson and Roberts counties had raised their quotas by March 9th.

Scholastic Census Is Being Taken in School District

S. B. Orton is taking the scholastic census of the Canyon Independent School District. The census will be completed by April 1st.

Mr. Orton states that several large families have moved away from Canyon since the census last year and that the total enumeration may show a reduction this year. There was a large increase in scholastics when the census was taken last year.

'98 Veteran Brother of Mrs. Wirt Dies

Mrs. Sam Wirt has received word that her brother, Samuel R. Hinchee of Shawnee, Okla., died in that city Saturday, March 11, following a stroke.

Mr. Hinchee was a veteran of the Spanish-American war and was in the Philippine Islands for 18 months. He had great confidence in General Mac Arthur and predicted ultimate victory in the Pacific.

School Election to Name 2 Trustees Saturday, April 1

Election of school trustees in the Canyon Independent School District and the Common School Districts will be held on Saturday, April 1.

J. H. Lisle and Paul Lindsey are the two trustees whose terms of office will expire this year. So far no applications have been filed for places on the ballots.

Lieut Davis Ready For Active Duty

Second Lieut. James M. Davis, son of Mr. and Mrs. John M. Davis, received his commission at the commencement exercises of the Army Air Forces Navigation School, San Marcos, Texas, recently.

The silver wings were awarded at the completion of an 18 weeks' course which qualified the men for assignment to AAF air crews and combat duty guiding giant bombers to their targets in Axis territories and back to base again—a vital role upon which depends not only the success of the mission but the safety of the men and plane as well.

Lieut. Davis is a graduate of Canyon High School, West Texas State, and the University of Texas.

A-C Robert Ziegler Is Advanced

Aviation Cadet Robert M. Ziegler, son of Mr. anda Mrs. Thomas W. Ziegler, has arrived in Lubbock to begin the final period of pilot training at that advanced two-engine school of the Army Air Forces Training Command. After a few more weeks of intensive training A-C Ziegler will receive the coveted silver wings of a bomber pilot and become a flying officer in the Army Air Forces.

LESLIE CURB DISCHARGED

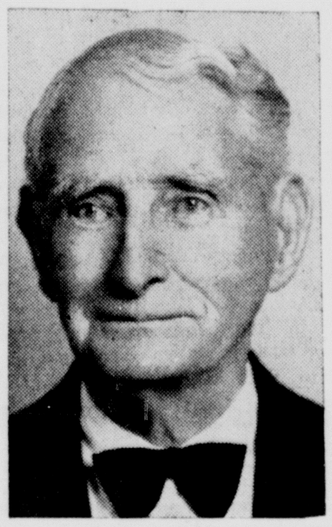
Leslie Curb has received a medical discharge from the army and is home, after spending 13 months at Sheppard Field. His arm was in bad condition and will have to have an operation. Curb was a star football player on the Buffalo football team, and co-captain before joining the army.

HUNT TO HOSPITAL

Oscar Hunt was taken to an Amarillo Hospital Friday for medical treatment. He has been in poor health for several weeks. Hunt was a pioneer business man of Canyon and served as postmaster for many years.

Geo. A. Brandon Died March 12th

Second Publisher of The News Died at His Home In Calif.—Native England



GEORGE A. BRANDON

George A. Brandon, second publisher of the Canyon News, died March 12, at his home in Alhambra, Calif.

Mr. Brandon bought The Stayer from the founder,, Mrs. R. W. Morgan. He changed the name to the Canyon City News and published the paper for 12 years. He sold the publication to C. O. Keiser in 1908 and R. A. Terrill was made editor. L. B. Christman succeeded Terrill in 1909 and continued until August, 1910, when the present publisher took charge.

Mr. Brandon was a forceful writer and during the period that he was publisher of the newspaper he advocated many reforms needed in those pioneer days. He was born in Manchester, England, but came to America when a youth.

Mr. and Mrs. Brandon moved to California 29 years ago. He never lost interest in Canyon affairs and Canyon people, keeping up with the progress which had been made in Canyon when he left.

Mrs. Brandon died 4 years ago. The couple is survived by three children, Walter Brandon, Mrs. C. E. Coss and Mrs. Ed Bryant.

Largest Group of Men take Physical for Armed Forces

The largest group of men to go to Lubbock for their physical examinations left Sunday afternoon in two busses. The group numbered 59 men. Several hundred citizens gathered to see the men off. The local board of Selective Service has not yet received the official report from the examinations and cannot announce those who passed or those who were rejected.

Milton Morris, leader of the group, states that he was told at Lubbock that 9 of the men were rejected because of physical disabilities.

Eight appeal cases are now before State Headquarters at Austin. It is likely that other appeals will be made following the physical examinations on April 21.

Mr. Morris stated that the group from Randall county was complimented at the examining station for the small number of rejections and for the conduct of the men.

Bill Money of Pampa asked to join the group Saturday. He was not on the list announced last week. All of the men notified made the trip.

Of this group 11 will be notified to report to the army at Fort Sill leaving the morning of April 17, and 7 will leave on the same afternoon to report to the navy at Lubbock.

The local board will meet Friday afternoon to hear a large number of applications for deferments. Faced with the responsibility of getting 54 men ready for the call on April 21, all men who seemed liable for military service have been put in 1-A. It is in response to these changes that so many Form 42-A applications have been filed requesting deferments.

Cold Wave Hits the Panhandle Over Week End

The temperature dropped to 18 degrees above zero Sunday as a cold wave swept over the Panhandle. A light snow came with the norther Saturday, but no moisture was registered.

The temperature has been low this week, with freezing nearly every night.

JOINED THE NAVY

Edgar Dana Persons joined the navy last week and is now in training at San Diego, Calif. He is the son of Mr. and Mrs. H. G. Persons.

City Politics to Draw Contest for 2 Commissioners

Friday is the last day for filing application for candidates in the coming city election.

Three names were filed last Thursday morning, too late for publication. This ticket included the names of W. A. Warren, for Mayor; S. H. Condron and B. F. Oatis for Commissioners.

A petition was filed Monday with the names of S. H. Condron and Andy Walsh for Commissioners.

The City Commission is composed of W. A. Warren, Mayor; S. B. Orton and B. F. Oatis, Commissioners.

Mr. Orton stated yesterday that he had not decided whether to file for a place on the ticket. He will decide by Friday whether to allow his name to go on the official ballots.

None of the candidates whose applications have been filed are active but their friends are planning to urge all citizens of Canyon to cast their ballots in the city election on April 4.

County Refunds Highway Bonds at Saving of Interest

Randall county has refunded bonds valued at $27,000, saving 3% on the interest. At the same time the State has assumed all of this bond issue so that the county will no longer make payments on the issue.

The issue was authorized for highway purposes in 1927 for $50,000, drawing 5½%. The issue has been paid down to $27,000.

When the county was authorized to refund the bonds at 2½% interest, the State assumed all of this issue.

Other county bond issues may be refunded under the present provisions.

Two Farm Homes Total Loss in Fires

On March 15 between 6 and 7 a. m., the house occupied by the Bill Gresham family on the Hedecote Ranch was destroyed by fire.

The twelve-year-old son had built a fire in the heater and gone back to bed to wait for the house to get warm. A little later he awakened to find the house full of smoke. He aroused the rest of the family who escaped without injury, but they only saved a few clothes and bed clothes that the mother grabbed as she fled the house.

Friday, March 17, Mrs. Earl Wesley came to town about ten o'clock. About one o'clock Mr. Wesley finished some painting and left the place. From some unknown origin the house caught fire. Everything burned,—trees around the house, a car sitting nearby and the windmill. The Wesley's had made their home there about 30 years.

No insurance was carried on either house.

Randall Co. H. D. To Have Rummage Sale

The Randall County Home Demonstration Council Rummage Sale is to be March 31st at the Webb Lumber Co. Building, 1115 E. 10th in Amarillo. All club members are asked to have donations in Miss Patterson's office not later than March 27th.

Air Training at WT Ends 1st Year

Birthday Party for the 350th College Training Detachment on Mar. 25

This week as the 350th Detachment is celebrating its first birthday, President J. A. Hill is announcing that a new contract has been entered into for continuation of the Detachment Training in West Texas State.

This detachment has been of value to W. T. and Canyon in countless ways. The new science building was completed through priority rights secured for materials because of the coming army detachment. New furniture and improvements fitted the men's dormitories, the N. Y. A. building, and the cafeteria. All expense was paid by the U. S. government.

To Canyon the detachment has meant increased friendships made with the students and with their families who came to live with them or to visit them. Then to the merchants the detachment has meant an increase of business.

To the present and past students the people of Canyon extend congratulations and compliment them upon the high standards they have set for the future students.

This week also brings announcement by the Training Command Headquarters of a revised program effective March 14 throughout the AAF Training Command's nationwide network of flying schools which adds nine weeks to the individual training period for U. S. fighter pilots and five weeks to the schedule for bomber pilots.

Each of the periods required to complete the curricula for preflight training and for primary, basic and advanced pilot training has been extended from nine to ten weeks. In addition, a new five week transition course, officially designated "fighter transition, single engine and fixed gunnery," has been established for fighter pilots. The nine weeks of transition trainiñg heretofore given bomber pilots in the 2 or 4 engine specialized schools has been stretched to ten weeks. Training Command officers explained that with the exception of the new transition course for fighter pilots the revised schedule is a reversion to the "ten week per phase" system employed before Pearl Harbor. The reduction of the phases from ten to nine weeks was made shortly after the U. S. entered the war and maintained up to date in order to meet the critical and heavy demand for pilots for the Air Forces in all theaters.

Now, the requirements of the Combat Air Forces are being filled adequately, the Training Command said, and it is possible to slow down the tempo of pilot training to provide more time for students to absorb the complex instruction and to reduce the mental and physical pressure under which they study and practice. No lengthening of the five weeks of basic military training and the approixmate 21½ weeks of aircrew college trainng is contemplated at this time.

Assuming no changes in the interim, combat units will benefit from the cumulative effect of the new time schedule gradually over a period between now and late 1945 as each successive shipment of pilots reports with more training than the preceding shipment.

Most significant feature of the new program is the fighter transition course. The Training Command has long given its bomber pilots transition training on two or four engine combat type aircraft before sending them to the "training" Air Forces. Fighter pilots, however, have been reporting to the operational training units immediately upon completion of the advance phase of their training. Transition training for them was included in the O. T. U.'s curricula.

Other changes in the new setup simply mean better preparation of pilots.

Jesse Bewley Again Sgt. With Co. F

T-Sgt. Jesse Bewley is back with Company F after having asked to be relieved of his responsibility as Staff Sergeant some time ago. He decided to go back to his old company and the army reinstated him there.

In a letter which was dated March 8 and came in 3 V-Mail letters, Sgt. Bewley wrote his mother that all the Canyon boys left in Co. F are well and dong fine except his brother, Jack, who is ill in a hospital.

REJECTED AT FT. SILL

Robert Clay Taylor was rejected Friday at Fort Sill and is under treatment at the army hospital. He was the only one of the 15 men who reported that was rejected.

Evelyn Black visited with Billye Turner in Stinnett from Thursday until Sunday night.

Senator O'Daniel is on the hunt in Texas to feel out public sentiment. He announced in Dallas that he found very little sentiment for a fourth term. He thinks a vast majority of the people are against Roosevelt. Naturally there is much hopeful listening on the part of the Junior Senator. He thinks that he hears the call to lead the Democratic party away from the Roosevelt camp. As much as many voters would like to see a change in Washington, we still believe that the average voter wants to be mighty sure that he is not trading for a blind horse before he decides to quit Roosevelt and vote for just any opponent. The July convention is only a short way off, and so far there is no Democratic candidate in the offing except Roosevelt. When the voters go to the polls, they are not going to be swayed by the hate-Roosevelt crowd so much as they are going to look over the candidates to decide who will be able to write a peace which will last more than 25 years.

The question of the effectiveness of bombing has been raised time and again during the war. The Germans thought they were knocking England out of the war during the early days when London and other industrial centers were so badly hammered. Three or four times it has been announced that Berlin had been wiped out, but after each big raid others follow to keep up the pounding. We read that Cassino, Italy, was wiped off the map, but the Germans came out fighting, and continued killing American soldiers. When the war was first started this scribe told a Canyon group that he did not believe the war would be won until the infantry moved in and cleaned up the mess. Indications are that this was a pretty sound prediction. As bad as bombings are in the destruction of property, it really takes the infantry to clean up the fighting units of the enemy.

Leading oil men of America claim there is a sufficient supply of oil in the ground to last for many years to come. Washington bureaucrats say this is not the case, and that huge sums of money should be spent in developing new fields in other nations. Perhaps it might be a wise thing to tackle the oil problem in a double barrel manner—loosen up on domestic regulations so that oil men may do their own developing in a reasonable manner, and at the same time do some prospecting in nations where the natives are not too much interested in oil. Only the government can afford to spend much money on such a deal. Remember the fact that Mexico took charge of the oil fields in that country which had been developed by American money.

The slow progress of the war in Italy makes the layman wonder as to the successful management of the war in this theatre. The thing slowed down as soon as General Eisenhower was transferred to England to prepare for the second front—which Churchill opposes at this time. But the military men are on the job, and claim to be well satisfied. Throughout the war, American military men have not needlessly sacrificed men, indicating the humane attitude of the men who are directing our affairs.

An army officer in Italy predicts that Germany will fall this fall, and the Japs will be whipped by next spring. That is good news, if the predictions come true. While America has suffered small losses as compared to the other major nations engaged, we have had too many men killed and crippled for life in this senseless thing called war.

When you drive your car on unnecessary trips, remember that you are depriving a pilot of the necessary gasoline to carry his load of destruction to the enemy.

We wish that some one in Washington would really find out what is going on as regards Selective Service and quit kidding the people. Just the other day we heard radio blasts from Washington that more pre-Pearl Harbor fathers would have to be called because so many single men were being harbored by essential industries. As a matter of fact there is hardly a local board in the nation which has just about exhausted its manpower, and has been inducting pre-Pearl Harbor fathers for several months. There is no use in kidding industry about the need of more men in the armed forces. Industry is going to hold on to every man it can just as long as it can, regardless of threats. The only way to clean single men out of industrial plants is for Selective Service to change its regulations so that local boards may draft these men without appeals, which are always upheld under present regulations.

Every town, hamlet and city in the nation is running over with people. Where did they all come from? Only a few years ago vacant houses could be found in the towns which today are running over with people. Hhe war has naturally brought readjustments in population, but not all towns have war industries. Therefore not all towns have attractions which would induce people to move in. Canyon has had a serious housing problem for two years, and conditions are today no better. What will it be after the war? Well, one thing is certain, Canyon has never had so many home owners as it has now. There should not be so many vacant houses after the war when people seek to find permanent employment. The men who come back from the war should find Canyon an attractive place to make their homes as employment is offered to them and local citizens strive to furnish them adequate housing facilities.

A business man told us his experience the other day in trying to start a new business in an industrial center. The unions left him alone until he got the business well underway. Then he was required to make agreements with a half dozen different unions which claimed to have jurisdiction over the dozen men working in the business. As a result he closed the business rather than submit to the drastic rules of the various unions. Is this what is going to happen to America? Are the demands of labor going to be so unreasonable that capital will withdraw and close needed industries? Will the working men allow the labor racketeers to so throttle productions that the people will be unable to pay the prices necessary to keep industry going? We have something to think about.

Churchill and Roosevelt will have another conference. Whether Stalin will be invited is problematical. It was generally reported that Churchill and Stalin did not get along at the last conference, and Roosevelt had to act as peace-maker between the two. Churchill stands out against a second front, which Stalin has demanded throughout the past year. Maybe Churchill figures that more Russians and Germans who are sacrificed in this war the more peaceful the world will be at the end of the war. Naturally he is looking out after the future security of the British Empire. The whole muddle is too complicated for the average layman, who cannot see the complex picture as presented by the warring elements of Europe.

Russia has recognized the government in Italy, much to the displeasure of the Allies. Stalin is realistic. He knows that Russia is winning the war, doing most of the fighting against Germany. Therefore, he will see to it that governments of the minor nations are friendly to Russia. Puppet nations are expected to be a barrier between Russia and Germany following this war, all of them friendly to Russia. Regardless of what Roosevelt and Churchill may think about this strategy, there is little they can do about it. You must remember that Churchill is definitely against a second front in France, but held out for the Italian campaign, which has not progressed any too well.

The President has submitted the soldier vote bill to the 48 Governors. He wants to veto the bill, but is seeking advice. Governor Stevenson has replied that the bill will suit Texas. Therefore, the need of a special session of the legislature will be unnecessary. This will be quite a blow to the Texas politicians who have been demanding that the Governor do something which all admit would be unconstitutional.

Newspaper publishers are hereby notified that the 35th Annual Convention of the Panhandle Press Association will be held in just three more weeks. The convention will be held April 14-15 at Amarillo. The program is completed, and will be filled with interest for all publishers. Plan now to attend this annual gathering.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

REMINDERS

Meats, Fats: Red stamps A8, B8, C8, D8, E8 and F8 are good through May 20. G8, H8 and J8 become good March 26 and remain good through June 18. Waste Kitchen fats exchanged for two points and four cents a pound.

Processed Fruits and Vegetables: Green stamps A8, B8, C8, D8, and E8 are good through May 20.

Gasoline: A-11 coupons are good through June 21.

Tire Inspection Deadlines: A-coupon holders, March 31; S-coupon holders, May 31; B-coupon holders, June 30.

Income Tax; Declaration of estimated 1944 tax are due by April 15.

LONGER PERIODS FOR FOOD STAMPS

Under the ration token plan, three red (meat-fats) 10-point stamps become good every two weeks, on Sundays, and five blue (processed fruits - vegetables) 10c point stamps become good on the first day of each month. To reduce last minute rush buying just before stamps run out, the Office of Price Administration increased the period for which stamps may be used. Thus, the 60 red points and 50 blue points which become good each month may be used at any time during a period of from 10 to 12 weeks.

CHANGES IN GASOLINE RULES

Beginning April 1, the five-gallon "R" gasoline coupon for non-highway users will be good for purchases at "authorized filling stations," as well as for gasoline purchased at bulk plants or delivered to private storage tanks, OPA announces. The "A" ration for motorists is now two gallons weekly in all parts of the country. On the Pacific Coast, the "B" ration has been cut from 460 to 400 miles a month.

CIVILIAN FOOD SUPPLY FAVORABLE

The civilian food supply for the next few months appears to be more abundant than for the same period last year, the Department of Agriculture reports. Potatoes and cabbage head the list of really abundant foods over most of the country. Other products include, carrots, beets, spinach, peanut butter, shell eggs, grapefruit and small oranges, frozen baked beans, citrus marmalade, lard, canned green and waxed beans, frozen vegetables, and canned peas and tomatoes.

DEFERMENTS TO BE MORE EXACT

Occupational deferments must be more exacting, particularly with registrants under the age of 26, in order to meet calls of the armed forces, the Director of Selective Service has notified local boards. The combined strength of our armed forces has been fixed at 11,300,000 by July 1, 1944, and as of February 1, some 9,352,000 had entered military service.

MORE INCOME TAX INFORMATION

While the majority of the nation's 50 million taxpayers will find their 1944 federal income tax obligations taken care of through withholding by their employers, an estimated 15 million will be required to file declarations of their estimated 1944 tax by April 15. Declaration forms are being mailed by the Bureau of Internal Revenue to all persons who filed declarations last fall. The first quarterly payment of estimated tax shown to be due on the declaration should be made at the time the declaration is filed, the other payments to be made on or before June 15, September 15, and December 15. Farmers who receive more than 80 per cent of their income from farming, may postpone filing their declarations until December 15. However, if they wait until December they must pay all of their estimated tax at that time.

EVACUEES ON LEAVE

More than 19,000 of the 112,000 people of Japanese ancestry evacuated to relocation centers from the West Coast two years ago have been granted indefinite leave to establish homes outside the centers, the War Relocation Authority announced. Between 2,000 and 3,000 others are on seasonal leave, mainly as farm workers. Fully two-thirds of the evacuees on leave were born in America, and 72 per cent have never seen Japan. Both citizens and aliens are carefully screened before permission is given to relocate.

GROW MORE GREENS IN '44

Home gardners should plan to grow more fresh greens over a long season and can less, food specialists of the U. S. Department of Agriculture suggest. The house-wife who puts up a big batch of greens in the spring for year-around use when she could have fresh greens from the garden makes herself extra work and serves less appetizing food.

FARM AND GARDEN SPEAKERS

Town and city groups—victory garden clubs, farm labor committees, schools, and other groups—desiring farm or garden speakers at their meetings should give their requests to the county agricultural agent, the War Food Administrator advises. The best time for such meetings is during "Grow More in '44" week, scheduled in most sections for April 2-8, before farmers get busy with the start of planting season, he suggested.

ROUND-UP

Salad oil spread on the surface of farm-cured ham will delay development of surface mold for several weeks, the Department of Agriculture says. . . . WFA has requisitioned 6½ million pounds of black pepper from importers and holders to supply U. S. requirements and commitbents until about 1946. . . . Power production in 30 Bureau Reclamation Power Plants has increased 275 per cent since Pearl Harbor, according to the Department of the Interior. . . . The War Manpower Commission predicts that before the end of the summer, 700,000 men and women will need to be recruited to work in canneries and food processing plants. . . . Only when present rear-wheel tractor tires are worn beyond recapping stage may ration certificates be obtained for new replacements, OPA says. . . . WPA says that—barbed wire and woven wire fencing may now be made in heavier gauges such as are needed to confine hogs and cattle, and standard weights of zinc coating will be permitted. . . . Production of home canning jars and closures has trippled in the past three years and is now keeping pace with increased demand. . . . Permission has been granted to manufacturers to make more and better quality bedsprings and box springs. . . . U. S. monthly war expenditures hit a new high of $7,808,000,000 in February.

"The redeeming feature of our democrat government is that when congressmen try everything else, they finally give up and do the sensible thing," says a well known writer.

BUT...

OIL-PLATING YOUR ENGINE is like outdoing the future—today

"A bird in the hand" is worth a whole flock of 1950 cars with wings—or even more moderate 1945 models that aren't here yet either. Better grasp the big advancement that's ready now... Better have your engine OIL-PLATED!

Conoco N*th* motor oil, for your needed Spring change, at once brings your engine internal OIL-PLATING—the foe of cursed engine acids. These unavoidable "leftovers" of combustion were a menace even when partly driven off by the steady heat of long trips. But rationing brought short jumps, with overcool operation that magnified acid attacks. It's high time now—in any car, under any conditions—to check rampant acids. And you'll succeed with Conoco N*th* oil, containing an advanced synthetic. This acts "magnet-like"... makes metals attract and hold their acid-resistant shield of OIL-PLATING.

Though your engine's cool or hot—running or not—the OIL-PLATING doesn't all promptly drain down to the crankcase. And where there's OIL-PLATING, the acids that want to destroy are told to "Keep Off!" That's how Conoco N*th* oil can advance your car's chance to keep going. Change for Spring today at Your Mileage Merchant's Conoco station. Continental Oil Company

Wartime drivers find Studebaker the ideal economy car

DEPENDABLE transportation means more than ever these days to busy wartime drivers.

Here's what a big-city physician, name on request, recently said: "In my general practice, I can always count on my Studebaker these war days for reliable, low-cost performance."

That doctor is one of many hard-working civilians who are getting exceptional tire, gas and maintenance economy from their Studebaker Champions, Commanders and Presidents.

In fact, today, after well over two years of war, hundreds of thousands of essential motorists from coast to coast are still enjoying dependable transportation at low cost, thanks to the quality of Studebaker craftsmanship and the advanced principles of Studebaker engineering.

Mrs. E. P. Harding and twins left March 12 for Bowie, where they are visiting Mrs. Floyd Kiser and Mr. and Mrs. A. A. Harding.

Mrs. Kiser (formerly Miss Drenan Harding of this community) gave birth to twin babies, Janice Elaine and Floyd Dwayne, on March 10th in Bowie Hospital. The babies' father, Sgt. Floyd Kiser has been stationed in Great Britain since January.

Miss Peggy Harding spent the week-end in Lubbock visiting with friends.

Miss Phyllis Albers, who for the past two weeks has been visiting in the Arthur Albers home at Hartley, and with Mr. and Mrs. Tom Harbert of Dumas, returned to her home Sunday.

Those from this community who attended the Walther League meeting in the home of Rev and Mrs. M. J. H. Hartenberger in Amarillo were Misses Betty Ann Miller, Wilma Schuette and Phyllis Albers; Alan, Marvin and Bruce Albers, Bob Albers, Oscar Schuette, Alvin Kuhlman, Wilbert Wendelkin and Lawrence Boehning.

Marvin Albers suffered from severe shock and minor bruises when he fell with his horse while riding Thursday afternoon. Marvin has practically recovered from the accident, but the horse died as a result of the fall.

Presbyterians Have Congregational Meet

The Annual Congregational Meeting of the First Presbyterian Church will follow a Family Night Dinner at the church on Thursday evening. Each family will bring a covered dish to the dinner at 6:45. Mr. and Mrs. Robert Black are leaders of the supper committee. This will also be an hour of fellowship.

Reports of the work of the past year and plans for the new church year will be given by the different organizations of the church. The budget for the new church year beginning April 1, will be presented by Lee Foster, Chairman of the Board of Deacons, for adoption by the congregation.

The Guild will present the play, "To Be Lived." Members of the cast will be Mrs. Cecil Briggs, Mrs. R. A. Neblett, Mrs. J. D. Barker, and Mrs. R. W. Jones.

The younger children will play together during the business session, under the supervision of Mrs. Mary Sligar and Mrs. Paul Neill.

EASY

A teacher was trying to demonstrate a simple experiment in the generation of steam.

"What have I in my hand?" he asked.

"A tin can," was the answer.

"Is the can an animate or an inanimate object?"

"Inanimate."

"Exactly. Now can any boy tell me how, with this can, it is possible to generate a surprising amount of speed, and power almost beyond control?"

One little boy raised his hand.

"You may answer, William."

"Tie it to a dog't tail."

"My wife is very irritable. The least thing sets her off."

"You're lucky at that. Mine's a self-starter."

REPAIR *NOW!*

for a year that will be TOUGH!

● You know what you're up against. Farm equipment *can't be replaced* if there's any way to put it in good operating condition. That's a government order! With help so scarce, farming is going to be tough. It's only common sense to put all your machines in the best possible shape.

This is no time to take chances and wait for your repairs until you need the equipment. Our shop is swamped, but we'll get your work out if you give us advance notice. And we'll get it out RIGHT because we have the tools and the experience it takes to service farm equipment.

Look over your equipment, then stop in *early* and sign up . . . with your McCormick-Deering dealer . . .

THE IMPORTANCE OF FUEL CONSERVATION MUST NOT BE MINIMIZED

The fuel used in American homes is a drain upon our limited resources of labor and transportation. The necessity of conserving it is great since the production and distribution of all fuel—coal, oil, electricity and gas —depends on manpower which is in itself becoming scarce. The more fuel used by civilians, the less of these resources there will be to fight the war.

THESE SEVEN DO'S are seven ways in which you can conserve gas and not cause any loss of heat or inconvenience to your household.

(1) Turn off heat when airing rooms.

(2) Close off unnecessary rooms for winter.

(3) Storm windows are heat savers.

(4) Shut heat off when opening windows for night.

(5) Install automatic door closers.

(6) Adjust fireplace dampers.

(7) Close door immediately upon departure.

PRESBYTERIAN AUXILIARY HAS REGULAR MEETING

The Ladies Auxiliary of the First Presbyterian Church held regular meeting March 14. The time usually devoted to the program was given to Mrs. Donnell for her devotional subject: "Introducing the Bible—What the Bible is About." In introducing her subject, Mrs. Donnell gave an outline of the Bible with explanations. This was followed by a picture in outline form, covering aeons of time of God in all his attributes of loftiness, sublimeness and holiness: God gave to man a likeness or image of himself. But man marred that image. Then God, though offended, was pleased to provide for man's salvation by making known to him that which was previously concealed—the revelation of Jesus—a mediator by nature, bringing man into favor with God.

Mrs. McCaslin plead divine blessings on foreign missionaries, especially during these doubtful times in the war stricken areas of the world.

Those present were: Mrs. Harvey Cash, Mrs. M. E. Cleavinger, Mrs. M. A. Biggers, Mrs. L. A. Donnell, Mrs. E. D. Harrell, Mrs. Robert W. Jones, Mrs. Nancy McCaslin, Mrs. L. L. Monroe, Mrs. J. R. Sharp.

STERNENBERG AND BELLAH TALK TO BOOK CLUB

At the meeting of the Woman's Book Club Wednesday in the Thompson Club Room, Mrs. A. W. MARY JO TOMLINSON HONORED ON SIXTEENTH BIRTHDAY

To celebrate the sixteenth birthday of her daughter, Mary Jo, Mrs. Floyd Tomlinson entertained with a luncheon Sunday, March 19.

Mary Jo had spent the week end in Amarillo, returning just in time for church; therefore her mother was able to get the surprise really set.

As the guests assembled in the dining room, they were greeted by the tune "Happy Birthday" from a revolving music - box cake stand which was placed on a reflector to form the table centerpiece. Tall pastel candles in low holders and pansy place cards added to the beauty of the table. A diamond-studded Hampton watch, the gift of the family, was mounted on the cake.

Seated at dinner were: Mary Jim Vincent from Amarillo, Billie Jean Gill, Leta McNutt, Joyce Carr, Neil Jennings, Billy Jo Hood, Joe Jed Miller, Bill Miller, Ervin SoRelle, and the honoree, Mary Jo Tomlinson.

After lunch the group saw "Thousands Cheer" at the Olympic Theatre.

J. D. (Jim) Stratton visited with his brother, C. H. Stratton last week. Mr. Stratton has been employed in the ship yards at Richmond, Calif., and is returning to his home at Knox City, Texas.

Mrs. R. S. Wilson, who will be remembered as Maudena Bishop, and her little son, Billy Max, of Los Angeles, California, spent two weeks in the home of her mother, Mrs. W. E. Lane.

Captain James M. Campbell, brother of Mrs. Claude White, and Capt. A. C. Papson enroute from Hendrix Field, Florida, to Clovis N. M., visited over Sunday in Canyon.

Mr. and Mrs. Joe Tunnell of Levelland and Mrs. Ed Pilley and son, Edward, visited over the week end with Mrs. Pilley's sister, Mrs. K. E. Frieze and husband.

Mrs. Glenn Phillips and two children from Booker and Mr. and Mrs. Dee Lowry and sone from Clarendon spent the week end in the parental R. D. Lowry home.

First Lieut. Wayndon Fain spent a short furlough visiting with his wife in the R. E. Gill home and with his mother, Mrs. T. W. Henderson.

Lt. Freed Mentions Future of W. T. In Letter To Dr. Hill

Lt. C. W. Freed, whose address is now in care of the Postmaster, New York City, has written President Hill within the past week. In a part of his letter, he mentions the future of West Texas State College as follows:

"From what I have learned at Wayne University, and Columbia, I would say that W. T. is not alone in having difficulty procuring a satisfactory staff. Now is the time to establish the foundations for the future, however. Too many will wait until the war is over 'to see what things will be like.' They will be left behind in the forward march of education. In a sense they are appeasers. It is heartening to know that the faculty is discussing post-war problems. Discussion is good if it leads to action. W. T. has the opportunity to be a great institution. It has able people on its faculty—some more able than those more famed in their fields. I know they can do any job you cut out for them, Prexy, and that they will have made W. T. a better place for Swineford and Hibbitts, and Bright and Baggett and myself to come back to."

Dr. Freed, Mr. Swineford, Mr. Hibbetts, Mr. Bright, and Mr. Baggett left Canyon on the same bus to enter the armed forces, and the five have endeavored to keep in touch with each other and with the college.

Mr. and Mrs. Howard Mahle and family from Lubbock spent the week end with his mother, Mrs. S. M. Mahle, and his sister, Mrs. Carl Hair and family.

O. B. Hefner and family from Crosbyton met their son and brother, Pvt. Neil Hefner, Amarillo Air Field, at the home of Mrs. Addie Hefner for the week end.

H. S. Strain was able to resume work at the Jarrett Drug Co. Tuesday after being confined to his home for five weeks as the result of a fall during the ice storm.

Mrs. Jim Hill and children and Foster Weir are here from Wichita Falls visiting in the parental R. E. Foster home.

Cpl. Johnnie Drinkwater and Cpl. Hutchins from Amarillo Air Field spent Sunday with Pfc. and Mrs. C. N. Tippery.

Charlotte Beth Henderson spent the week end in the parental W. T. Henderson home.

Lieut. Donald Foster from San Marcos spent Thursday night in the parental R. E. Foster home.

Mrs. George Barnard has returned from Colorado and is with her daughter, Mrs. C. F. Shenefelt.

Mrs. W. E. Lane of Amarillo is now home after spending 11 weeks in the hospital with a broken leg.

The colored preacher had just finished his sermon about free salvation and asked a brother to take up the collection.

At this, a member of the congregation arose and protested:

"Pahson, Ah thought you said salvation was free—free as the water weuns drink."

"Salvation is free, Brother," replied the parson. "It's free just like water is free, but we pipes it to you and you have to pay for the piping."

Capt. Swineford Met Ex-Student In North Africa

Capt. D. T. Swineford, who is on leave of W. T.'s department of Art, and serving somewhere in the African Theatre of War wrote President and Mrs. J. A. Hill and friends in Canyon on March 8, that he had just received the December 7th issue of The Prairie and had enjoyed it very much.

He said further "Since I have last written to you I have been able to find enough time to sketch a few natives, and it really has been a pleasure to me. We have been so busy with our duties, it has been almost impossible to do anything that we were interesed in in civilian life."

Then he wrote, "I saw Warren Lockhart a few days ago when he came through here. He expects to be home before long on leave. He really enjoyed the Prairies that I gave him and we had a nice visit together. He is one swell fellow and West Texas has every right to be proud of him. . . . It seems that West Texas is certainly doing its share in furnishing the army with men—and good men, too.

"It sure is a lot of satisfaction to realize you have known and worked with people like my friends back in Canyon. The whole school seems more like a big family than just teachers and students."

Mr. Swineford was known all over West Texas and in Oklahoma for his ability in many phases of art work and for his friendly interest in all people.

Influence of the War on Theatres, Movies and Books Discussed

Prof. James H. Butler of W. T. talked to the Rotary Club luncheon Tuesday on the influence of the war on the theatre, movies and literature.

Of 34 plays on Broadway only two are war plays. No great war play has been produced.

Movies are predominately of war, with a few outstanding ones so far.

Many factual books have been written on the war. Mr. Butler calls "See Here, Private Hargrove," a classic. It is enjoyed by men in uniform and civies alike.

Mr. Butler read from the poems which are being written with a war background.

Hal Harrison answered a few questions regarding his experiences in the Pacific where he has been in eight major engagements.

T. S. Stevenson was in charge of the program.

Visitors were: J. B. Cole, C. T. Crowe, E. Kancher, F. R. Barnes, all of Amarillo; S. T. Attaway of Canyon Aviation Service.

TSTA and PHSPA Hold Annual Conferences Friday

The Eagle's Tale

18th Year | Published by The Canyon News for Canyon High School | Thursday, March 23, 1944

Teachers Attend Various Classes

Instructors Choose Speer Organization's Treasurer

To enable the Canyon Public School Faculty to attend the annual meeting of the Northwest Texas Conference for Education March 17 at Amarillo, Superintendent J. B. Speer declared Friday a holiday for the students of Canyon Public Schools.

Starting the conference, a general meeting of all the teachers was held in the Senior High School Auditorium. Chester Strickland, president of the conference, presided over the meeting. Speakers of this session were prominent educators from different parts of the United States. Special music was given by the Pampa and White Deer bands.

Sectional Meetings

Throughout the day, teachers attended the special sectional meetings which were related to their particular line of teaching. Miss Elva Fronabarger, principal of the grade school, spoke on "Teaching Remedial Reading in the Elementary Grades" at the meeting of the Elementary Language Arts Sections.

To conclude the meeting, a general session was held Friday night in the high school auditorium. Presiding chairman was Blake Bolton, vice-president of the conference. Mayor Joe A. Jenkins, Amarillo, and Josh Lee, Washington, D. C. were the main speakers. Music by the Amarillo High School A Capella Choir, and the Amarillo College Quartet proved to be the main event of the evening.

At a business meeting held Friday afternoon, Mr. Speer was elected treasurer of the Northwest Texas Teachers Convention.

This conference was attended by a large majority of the Canyon Public School Faculty.

BACK YOUR FRIENDS

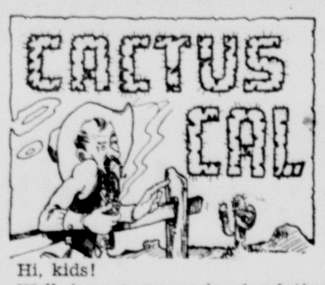
Private Joe Smith lay in his foxhole on a night when the Japs had given out with everything they had. Suddenly firing stopped and a deadly silence came over the hot jungle.

Joe began to think of the folks back home and what they really meant to him. First, his girl friend, who was going to school and studying hard to be ready when he came home. Then his mother and dad who were buying bonds and saving to aid him in the future when he returned. Next came his kid sister and bud who were helping him with school drives and war stamps. Then he thought of all his old friends who not only gave him their friendship but also contributed to the Red Cross and war savings campaigns. Most important of all, he received letters from them every day. Just that day packages had come from his mother and sweetheart.

Suddenly the firing began anew and as Joe turned back to his guns he thought "I must fight just that much harder to make this world better for the ones I love back in the States."

Are you backing your friends and loved ones in the foxholes, and are you waiting faithfully for them to return? Make this your present objective:

BACK 'EM TO THE LIMIT!



Hi, kids!

Well, here I am again circulating all the rising rumors of old Canyon High School.

For instance, did you know that sixth grade girls have boy trouble? I'm talking about those scratches and tooth marks on Donna Dean Davis and Claudine Beavers. It all comes from fighting tooth and nail over Donnell Ruthart. Winner of the bout is yet to be predicted, but from the looks of things Davis is in the lead.

From very reliable sources, I've heard that most of the girls who went to the P. H. S. P. A. meeting in Amarillo last Friday attended the show "Higher and Higher" starring Frank Sinatra. Wonder how many of them swooned? Bet we could find out from Margaret Lair or Ellen Sanders.

Why is it in the second period study hall that Evelyn Black and Peggy Head claim they are quarantined? Studying for a test, girls?

Say, have youse guys heard of the big picnic some of the juniors and seniors held last Thursday afternoon? Sho' was crowded with nine in that car. Too bad yours truly wasn't along to take care of the extra gal.

By the way, who were the girls seen with Harley Hicks and Tommy Thompson last Friday night? Anyone who knows please let ole' Cal know.

And again what were Harley Hicks and Earl Lock Neff doing with those college girls in Bob's last Monday night? I suppose that will remain one of the unsolved mysteries of our lives.

"GI Joes" Say "So Long"

Canyon High School salutes their new members of the United States Armed Forces!

Marching forward and snappily returning our salutes are Privates Eugene Bonds and Louis Hinders, former students. Eugene (ask Mary Alice) left strict orders to the home wolves to "lay off my girl." Although Eugene hasn't been around school much this year, everyone still considers him one of the "family." Louis, one of last year's intellectuals (?), has been attending W. T. and managing the college farm this year.

Now that Charles Head, Wallace Huff and George Black are gobs in Uncle Sam's Navy, we're praying for them. Please officers, don't make them scrub floors and peel potatoes all the time. Charles, don't tell the admiral how to run that "tub" over six times per day. Don't fall in love with the mermaids, Wallace, or would it be vice versa? We aren't even going to warn George, because we already know he will have a girl in every port.

May the best breaks and promotions come your ways, boys; and remember, you are always welcome in the portals of your old alma mater. We're behind you!

Tracksters Hold District Meet

Physical-Ed Boys Uphold Canyon Athletic Record

Meeting at Canyon April 15th, five teams—Dalhart, Dimmitt, Dumas, Canyon, and Friona—will participate in the Class A, District One, Area Meet.

There will be trophies for the winning teams and individual awards given to the winning boys.

Events for the track meet will be 120 high hurdles, 100 yard dash, 440 yard dash, 200 yard low hurdles, 440 yard relay, 880 yard run, 220 yard dash, mile run and one mile relay.

In the field meet there will be pole vaulting, running high jump, 12 lb. shot put, running broad jump and discus throw.

Many boys from Canyon High School have already entered various events and many more are expected to participate before the week is up.

Monday afternoon found several boys trying to smooth out the winter's stiffness from their joints. One or two of them found they needed more than the average warm-up before they were ready to accomplish the complicated designs of pole vaulting and the high jumps.

Speaker Stresses Value of Science

In the High School Science Section of the Northwest Texas Conference for Education last Friday, Dr. Paul V. Brower of Cactus Ordnance Works at Dumas gave a talk to science teachers from all parts of the Panhandle, including Mrs. K. Kirkland from Canyon High School, emphasizing the importance of fundamental high school education for young people who plan to take part in the advanced future of the world.

After relating how science played an important part in the development of the Cactus plant and of many new gasolines and processes vital to the war, Dr. Brower stated that those who had straight high school science courses are far more valuable in industry than those who know no science.

Men and women who have even a meager scientific vocabulary are easier to teach and can secure better pay. For instance, a person without scientific knowledge may start out on a salary of seventy cents an hour, while someone with scientific background may start in the same job at ninety-eight cents an hour.

Dr. Brower emphasized that courses of simple science, arithmetic, and English are invaluable to those who wish to progress in the field of industry.

Strain Supervises Current Tourney

A bracket of games set up by Miss Dorothy Strain, physical education teacher and volleyball coach, will be played by the various class teams in the girls' double elimination intramural volleyball tournament through Friday, March 31.

Team captains are seniors, Helen Jo Cox; juniors, Lorene Seales; sophomores, Doris Ruth Meadows; freshmen, Johnnie Marie Ford; eighth grade, Martha Jean Avent; and seventh grade, Dorothy Butler. These captains also act as coaches.

A trophy will be presented to the winning team, and a small award will be presented to the most valuable member of each team.

Reverend Finley Discusses "Boredom and Its Cures"

Characterizing the committee meeting and rehearsals of an assembly program were the seventh graders last Thursday with Richard Walters as master of ceremonies.

Suzane Stephenson, Chloe Ann Black, Jo Ann Bullard, and Jerre Inman made up the committee who were to select an assembly program.

Those who were on the program were Bettye Jo Ponder, singing "People Will Say We're In Love" lovingly to Dennis Burrus, who didn't seem to think much of the idea; Clifford Prichard and Delbert McBroom, who staged a very exciting boxing match, with the referee, Don Hickman, being knocked out as a result; Jimmie Lindsey, who sang the ever popular "Paper Doll;" Frankie Sneed, who tried to get someone (Glen Prater, preferably) to please "Put Your Arms Around Me Honey"; and Patsy Woods, sophomore, who was pianist for the group.

Preceding the major part of the program, Reverend Joseph Finley from the First Christian Church gave the devotional on "Boredom and Its Cure."

Billy Jane Bonifield, Student Council president, led the student body in the Pledge of Allegiance.

CHS Teachers Leave Class for Sunshine

Erasers flew; spit wads found their marks; paper planes whizzed through space until forced landings were made. Where were the teachers?

After the noon bell had rung Monday afternoon, members of the classes of Mrs. Lee Gilmore and Mrs. Cecil Simms discovered the absence of their teachers. About twenty-five students in the library found themselves all alone in that big hall. Where was Mrs. Kleinschmidt?

No, these women had not resigned, deserted, or been discharged. After a period of detective work by Supt. J. B. Speer, it was learned that the teachers were last seen in front of the of the building discussing matters of the day. Sure enough, there they still were, all three of them talking calmly on the front steps of the school. They had not heard the noon bell!

Richard Dietz Visits Canyon High School

Richard Dietz, AMMI2c, United States Navy, a 1940 graduate of Canyon High School and brother of Alfred and Jimmy Dietz, visited his Alma Mater for a short time Thursday.

Seaman Dietz volunteered for the Navy seven weeks before Pearl Harbor and has been stationed in the United States since the outbreak of the war.

After a short visit with his family, Richard returned to his station.

GRADE NOTES

As their Red Cross project for this week, students in Mrs. A. K. Goodman's third grade made a sunshine box to send to Alice Mae Simms, who is now at home and doing quite nicely.

Stanley Lair, of Mrs. Andy Walsh's fifth grade, returned Monday after a two weeks visit to Mexico City, Mexico, and spoke to his class Tuesday on the interesting things he saw while he was gone.

Following their regular Bird Club meeting, Mrs. L. M. Cousins' fourth grade pupils were entertained by a surprise St. Patrick's Party.

After a program consisting of Ted Nicklaus' violin accompaniment of Dorothy McReynolds and Richard Sanders singing "America the Beautiful," Teddy Howell and Harold Hill Slack's singing "America," Shirley Leonard and Dorothy McReynolds' singing "Star Spangled Banner," hostesses Jimile Jennings, Dorothy, and Teddy served green punch, Shamrock cookies, brownies, and popcorn to class members and grade teachers.

Dolores Dietz of Mrs. R. Davis' second grade, was in a car accident to an Amarillo hospital. She was to an Amairllo hospital. She was not seriously injured, however, and is now recuperating at home.

Troy Burrus, Charles Snapp, and Joe Dean Abbott were hosts to Mrs. W. E. Miller's sixth grade Monday. After a period of jokes and singing, punch and cookies were served.

A large part of the past week was spent in the grade pupils' taking six weeks examinations.

Historical note: The ancients considered even numbers as female and odd numbers as male. We've seen some odd numbers among both the male and female.

Bloofus: My wife talks so much I never get a chance to tell her anything.

Obfus: Do like I do—put a note in your pants pocket for her to read during the night.

The Navy says in order to transport troops and supplies we need to launch more bottoms. We need to kick some, too!

Mrs. T. V. Reeves Takes Duties as New Sponsor

In co-operation with the Texas State Teachers Association, the Panhandle High School Press Association held their annual meeting at Amarillo Senior High School last Friday, March 17.

Main features of the meeting were addresses by Jerry Malin, editor of the Amarillo Times, who spoke on "Journalism as a Future," and Wes Izzard, editor-in-chief of the Amarillo News and Globe, who concluded the program by predicting a revolution in journalism following the war.

Durrett Gives Welcome

A speech of welcome to the visiting schools was delivered by Eldon Durrett, editor of the Amarillo Sandstorm, followed by a response by Mollie Nann Ziegler, editor of The Eagle's Tale.

Led by White Deer, representatives from each group conducted a round table discussion on "How We Fight the War in Our Paper," in order that students might gain new ideas for their school papers.

Other features of the meeting were lunch in the high school cafeteria, two moving pictures on journalism, and an inspection of the Sandstorm office by the visitors.

Mary Nell Gibson, of Amarillo, who is this year's PHSPA President, presided over the business meeting during which the following officers for the coming year were elected: President, Phyllis Shuman, White Deer; vice-president, Jean LaRoe, Happy; secretary, Naomi Brumley, Hereford; and treasurer, Ellen Sanders, Canyon.

In the absence of Lt. Olin E. Hinkle, United States Army, past sponsor of the group, Mrs. T. V. Reeves, of West Texas State College, will serve as acting sponsor during the coming year.

M. E. Cantrell

SHERIFF AND TAX ASSESSOR, RANDALL COUNTY, TEXAS

While your columnist never knew Irvin S. Cobb personally, it was my privilege to work as a reporter on the Commercial-Appeal in Memphis, Tenn., with a brother of his who was himself quite an amusing companion. It was soon after World War I and, one evening when someone was mentioned as having served in France, another newspaper man said, "What, was Brown in the war?" Cobb exclaimed, "Was he in the war? Why, the French decorated him with Crocks de Gooks," which was his quaint way of pronouncing "Croix de Guerre."

The best stories about Irvin Cobb dealt with his days as a reporter on the New York World, before the pride of Paducah became famous as a short story writer and humorist. The World's city editor was a slave-driver and, one day when Cobb reported for duty, the assistant city editor was in charge. "Where's old Simon Legree?" Cobb asked. The assistant replied, "He's sick." Cobb said, "Nothing trivial, I hope."

On one occasion, Cobb was assigned to write up a lecture to be given by an English nobleman. The night was inclement and Cobb and the lecturer were the only ones who showed up. Nevertheless, the duke went ahead and delivered his speech in full. Afterward, he suggested to the newspaperman, "You can say that my address was heard by a large and respectable audience." When Cobb objected that this might not be strictly accurate, the nobleman looked at the reporter's portly form and said, "You are large—and I am certainly respectable.

And now it looks as though the Lieutenant Governor may be planning to run for Governor. A few days ago, the Litutenant Governor made public statement about permitting soldiers to vote and charged that Governor Coke Stevenson was "violating both the letter and spirit of the Constitution.

Lt. Hinkle Still Hears About The Tall Team of W. T.

West Texas State's Tall Basketball players continue to bring interesting contacts to Lt. Olin E. Hinkle, who accompanied the Tall Team on one of its trips to Madison Square Garden, New York City.

In a recent letter to President Hill, Lt. Hinkle writes, "Nearly every day I talk to boys who ask about Halbert, Brookfield, etc. The editor of the current classbook was a P. M. sports writer last year when I spoke at a basketball writer's banquet in New York. One of the Long Island University players who played opposite Maddox finished here recently, and Bill Dudley, of Virginia, who nosed out our Little Ben Collins for national scoring honors, is now a flying cadet here.

Lt. Hinkle is stationed at Ellington Field near Houston, Texas.

Quentin Ward Now First Lieutenant

Frank Quentin Ward, chemistry major '42, now a meteorologist with the U. S. Air Forces in Britain, has just been promoted to first lieutenant, according to word reaching his sister,, Mrs. W. M. Davis, of Dalhart, Home Economics graduate of the class of '26.

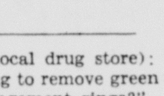
His wife, the former Ozline Malloy, was a mathematics major in 1942.

Girl (in local drug store): "Have you anything to remove green marks left by engagement rings?"

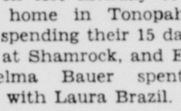
It's Fun For YOU . . But

WORK FOR YOUR EYES!

Eyes are being used at least 20% more in the home than they were a few years ago . . . based on a recent survey of over 3,000 people in 914 families. Because of this, remember that lots of things which are fun for you, are WORK for your eyes. There's extra need to watch your light and guard eyesight.



It's fun . . . to sit back, relax after the day's task at the office, in the store or shop, or at some other job, and turn on the light for a quiet hour of reading today's news. But that is when your eyes start working. If the light is too dim, or the shade too dark, or if dust has collected on the bulb . . . the task is going to be a hard one for your eyes. They haven't rested during the day . . now to bring them home and give them even a harder task is asking a lot of eyesight. Why not make the added burden lighter for your eyes by observing a few simple rules of precaution.



How to Get More Out of Light

1.—Keep bulbs and reflectors clean . . . dust and dirt waste more light than you think.

2.—Replace dark shades or shades turned yellow; get more light.

3.—When you buy a lamp bulb, buy carefully; be sure it's the right size to protect your eyes.

Speaking of Postwar Planning

as who isn't...

THE AIR IS FULL of talk about Postwar Planning . . .

Big plans, little plans, dreamy plans, hard-boiled plans.

Fine! But . . . just bear in mind that . . .

The best planner for your personal postwar world is *yourself!* And probably the wisest plan you can adopt is to soak every extra dollar you can lay hands on into War Bonds—where they become "double-duty" dollars.

They'll not only help finance the War—they'll be mighty useful toward making *your* world that *better* world we're all hoping will emerge afterwards!

Dr. E. Kay Bryan Appointed China Missionary

Dr. E. Kay Bryan, who was a student at W. T. in '30-'31, remembers his days here with pleasure and writes from Oakland, California, to say so. In a letter to Registrar D. A. Shirley he relates that in 1941 he received his M. D. from Baylor University and that last October he and his wife were appointed missionaries to China. Both are now studying the Chinese language at the California College in China, which was formerly located at Peking, but is now carried on in exile on the campus of the University of California in Berkeley.

Continuing, Dr. Bryan says, "We hope to return to Texas before we sail for China, which may be delayed until after the war, and if we do, I would like very much to visit again there at W. T. S. C., because it was my first Alma Mater, and also because it was there that I first obtained my interest in the sciences, and that while taking Chemistry with Dr. Pierle. I appreciate a great deal his interest and encouragement to his students. I wonder if he is still giving his side talks on 'the student'—that is the real student who earnestly seeks after knowledge.

Dr. Bryan's letter of appreciation is typical of many which are received at the college. Young people who are intellectually hungry, seem always to be grateful for the thoroughness which is one of the ideals of West Texas State.

V-NEWS

To be sure that the vitamins you buy actually reach your table use these 4 simple rules for vitamized cooking:

1. Use Little or No Water: By avoiding excessive amounts of cooking liquid, the dissolving and loss of water-soluble vitamins and minerals is held to a minimum.

1. Start Fast—Cook Quickly: Quick cooking protects vitamins and minerals in foods by keeping to a minimum the time they are exposed to heat, liquid and air.

3. Avoid Violent Boiling: The right amount of heat, accurately controlled, eliminates violent boiling with its vitimin-destroying effect.

4. Cook in Covered Utensils—Don't Stir. Air destroys certain vitamins, and stirring puts extra air in food. Electric heat is so evenly distributed that there are no "hot spots" to cause scorching or burning. Therefore, foods can be cooked in covered utensils, without stirring.

No cheerfulness is spread by folks who go around looking as if they had been raised on lemon juice instead of milk.

Finishing a good book is like leaving a good friend.
